

REMARKS

The telephone interview with Examiner Cutliff on February 25, 2008 is acknowledged. Claim 1, which was indicated to be allowable, has been amended so that it is identified as an amended claim. Claim 5 has been revised to reflect the fact that it was previously submitted and claims 6-18 which the Examiner indicated to be allowable, if revised into the proper statutory form, have been identified as "Withdrawn Currently amended" claims to reflect the amendment that places these claims in proper statutory form by substituting the method of application for the "use" language that is canceled by this amendment. Claim 14 has been amended so that the list of compounds conforms to the compounds recited in claim 5. In addition, claim 25 has been amended to be dependent on allowable claims 1-5 as well as claim 24. It is believed that this amendment removes all of the outstanding issues and that the application may be passed to issue.

An early and favorable action is earnestly solicited.

Respectfully submitted,

James V. Costigan
